

SSL Web Server Wildcard Certificates

[Secure SSL certificates with full authentication capable of 256-bit encryption that secure multiple hosts on a single domain on the same server.]

thawte offers a Wildcard solution with its SSL Web Server Wildcard product, unique to our Reseller Partner Program. This product is a Web Server certificate that conveniently allows you to secure multiple hosts on one domain on the same server using *.domain.com pattern for the common name. Your customers will no longer need to spend time, money and effort on obtaining certificates for all their hosts on a domain.

The *thawte* SSL Web Server Wildcard Certificate offers comprehensive authentication procedures (domain name **and** identity verification). It also offers 256, 128, 56 or 40-bit encryption depending on your client's browser capability and the cipher suite installed on your web server. This ensures that information is kept private between your web server and your clients' web browsers.

Certificate features and benefits

Is this right for my business?

The SSL Web Server Wildcard Certificate allows you to manage multiple hosts on a single domain on a single server with a **single** Certificate. Moving this environment from multiple certificates to a single certificate significantly reduces management time and all associated costs.

Authentication procedures standard with a *thawte* SSL Web Server Wildcard Certificate

- β Company registration details are confirmed
- β Confirmation that the domain is owned by said registered company, or that the company has the right to make changes to the domain.
- β 3rd party confirms that the authorized person requesting certificate is employed by requesting party.

Free Support Resources

- β Full and unlimited online support for the lifetime of the certificate.
- β Multi-lingual global support in 25 languages.
- β Live online chat for sales and customer support.
- β 24 x 5 technical support.
- β Unlimited access to *thawte's* extensive online knowledge base.
- β Highly trained and dedicated support staff
